Online-Petition for the German dubbed MacGyver-DVDs

Dear Mrs Avery,

It has been 22 years since the first episode of the "MacGyver"-series was shown on American TV and 20 years since the series started in Germany. Three years ago, the publishing of the DVD-edition started in the USA. One year later, the DVDs came out in Europe, too.

Unfortunately, the German-speaking fans of the series have been left out of consideration and are thus still waiting for the dubbed version on DVD. Sadly, promises on your side considering the publishing date of the German DVD-version were not kept.

As a matter of fact, we are aware of the problems of acquiring the rights for the German tone language. Nevertheless, we strongly believe that this problem can be solved.

We, the undersigned of this petition, ask you to publish the "MacGyver"-series with the German voices in the near future, and we add weight to this request with our signatures. Although the signatures are only electronically-existing, we ensure you of their correctness as some security devices were used.

By looking at the numerous signatures, you will easily realize that there is a market potential in German-speaking countries for the German version of the series.

Yours sincerely,

Jochen Anderweit
(in the name of 790 signees)
